The Position of the Senter Republicans Since the Election.

They are Victors, Shorn of the

Spoils of the Victory. The Position of the Stokes Men in

# the Republican Party.

KNOXVILLE, TEN. AUG. 9, 1869. It is seldom, says a Correspondent of Cincinnati Commercial, that a single ection expresses a more thorough revo- few followers as the Republican party, and lation in public opinion in a State than is Stokes and the great mass of Republicans indicated by the result of last Thursday's as disorganizers and proscriptionists. voting. This State gave General Grant a majority of over thirty thousand in Noember last. The last Legislature, comes entirely Republican. To-day the State has a Governor-Conservative or we thirds Democratic, one-sixth Senter and one-sixth Stokes Republican. This sult has been reached by the votes of those enfranchised by Governor Senter's All these things simply show that the Reegistration, two-thirds of whom, under the ranchise Law as it now stands, hold illeal certificates. Paradoxical as it may seem, these men, though holding certifiates illegally issued, were nevertheless legal voters, and the election is, therefore, and regular.

This seemingly absurd proposition is true under the peculiar provisions of the Franchise law, for by its terms the certificate of the register is conclusive of the holder's ight to vote, There is no appeal from his decision. If he issues certificates ille-

their party a sweeping victory. Under these circumstances there is nothing left for General Stokes but submission. The great result reached must, after all, be acceptable to all liberal minded men. The opposition of Stokes Republicans to the immediate enfranchisement bestowed by Senter's registration commissioners, was not so much from a desire to mination that the Senter Republicans should not profit by their open violation of law and treachery-either by securing office, or by receiving credit for liberality or sincere conversion. The result now reached ought to be more gratifying to Stokes' friends than to the Senter Republicans. I have endeavored to show your readers that Senter, Brownlow and their followers espoused the cause of universal ed it came on at 1:29, was at its height at 5:29, and off of 6:23. Will you or some of suffrage because they saw there was no othtrol of the State patronage, and prevent in- | ed to go on, and greatly oblige a vestigation of their past corruption. This is not a very charitable conclusion, and may not be readily accepted by those unacquainted with Tennessee politics, but it cans were the most illiberal and proscriptive leaders in the party; the fact that Senters' friends in the Convention asked extreme Republicans to support him because he was opposed to universal suffrage; the fact that two days before he announc- the lower end of a sheet of paper, which ed himself at Nashville in favor of uni- circle is designed to represent the earth. versal suffrage, he declared at Knoxville that he would "favor the enfranchisement

were restored to life and not before;" the fact that his ardent supporters who left the Republican party with him, were nearly all men who hold places under him, or were promised patranage in the future; and mark it S. This circle may be much the fact that they knew that the Stokes del- smaller than the first one, Because the ly in the majority, and that therefore Sen- er. ter could not be nominated or elected by the Republican party; the fact that his friends declared here in Knoxville before would be a candidate whether nominated by the Convention or not,-all these facts must satisfy every reasonable man that Senter and his friends were determined to keep control of the State, and that in order to do it, they announced themselves as universal suffrage men, and openly vielated and annulled laws they helped to

cuset in order to secure their triumph.

But now, when the election is over, and

it is demonstrated that though Senter is elected, he and his followers are defeated in this, that they have a Legislature almost unanimously epposed to them, and cannot, therefore, control and dispense the patronage of the State, the Stokes Republicans on the surface of this rotating sphere. feel that they can well be satisfied. They have been defeated in an open contest, but the Senter Republicans after a base be- be a shining body, and the moon be placed traval of their party, and an open, corrupt half way between S and W, then S would violation of law, have lost their thirty pie- be totally obscured at a single point at W. tician than Prof. Pierce to calculate. ces of silver, and find themselves victors But, if the moon were brought a little nearer to W, then a small round shadow shorn of the spoils of their conquest. In the Christian Churches: 170,000,000 profess the Roman Catholic. 75,000,000 profess the Greek Faith. 80,000,000 profess the Protestant.

A CLOCK which has just been completed for the Cathdral of Beauvais far surpasses all the existing specimens of the clockmaker's art. This wonderful piece of mechanism contains no less than 90,000 old English family Bible, bearing date wheels, and indicates among many other things too numerous to recite, the days of Detroit, and has descended down from more will entirely settle the bounty account. Here are two important items, aggregating nearly \$25,000,000, to be taken out of the expenditure account for the large agreement of the expenditure account for the large agreement of the planets, the phases of the murderer's stronghold; but to storm the murderer's stronghold; but the fox took the matter coolly, and devourged the pig under the very nose of its moon, the time at every capital in the world, the moveable feasts for 100 years, large a lew repairs at the fox took the matter coolly, and devourged the pig under the very nose of its moon, the time at every capital in the world, the moveable feasts for 100 years, large and yesterday, after a lew repairs at the fox took the matter coolly, and devourged the pig under the very nose of its moon, the time at every capital in the world, the moveable feasts for 100 years, large and yesterday, after a lew repairs at the fox took the matter coolly, and devourged the pig under the very nose of its moon, the time at every capital in the world, the moveable feasts for 100 years, large and yesterday, after a lew repairs at the fox took the planets, the phases of the planets, the phase of the planets are planets. curious part of the mechanism is that

# Emigration of Chinese.

It appears that the laws against emigra-Many interesting narratives and expetion in China are extremely stringent, as

> "All private citizens who remove to foreigh lands for the purpose of inhabiting or cultivating the same, shall be punished according to the law against communicating with rebels and enemies." But, aside from such a sweeping penalty

as that imposed by this act. Sir John Davis, one of the most reliable travellers in China, states that the abandonment of his native place and of the tombs of his ancestors is always abhorrent to the mind of a Chinese, and he always makes it a sine qua non with the contractor who furnishes him the means to emigrate that he will return him, dead or alive, to his native country. Indeed, it is a part of their religion that the means of communication with the spirits of their dead ancestors would be cut off if they were not buried in the Flowery Kingdom. On account of this wholesale prohibition of emigration, aided by the operation of natural causes, China has become the most over-populated country on the face of the globe. A census taken in 1812 made the population 360,-279,897, and, although discredit has been with him several days, and endeavoring to family of children depending upon me for clusion recorded in the latest geographical get him to return with him, but all to no their daily bread. Finally, as the war works, that the present population of the purpose. Another effort was made, about continued I was drafted. No draft money Empire largely exceeds four hundred millive years ago, by a grandson who visited was given me; I was unable to procure a lions. This is considerably more than the him to get him to return, but he was substitute, and made up my mind to go. population of all America and Europe combined. It is about three hundred inrolled on; the old man grew older, and and was just leaving to report for duty at habitants to the square mile, a density of population exceeding even that of England or Holland, and which leaves New

### Extraordinary Exodus of Honey

One of the most remarkable occurrences that has ever come to our knowledge was in raising honey bees, and with almost unprecedented success. He has lately rejoiced in as many as forty-five hives of the industrious little "cusses," and, to use a homely phrase, they have been plying themselves like Turks and making "slath-Fellows out, when the latter made a move- brought up by his grand parents, and don't lead the murmurer to peace and resigna- ers" of honer for the winter. A few mornings ago, however, Mr. Broil woke up to find his bees non est. They had "lit out" between two days, leaving no trace There are on the globe 1,288,000,000 of whatever of the point or region of country to which they had so unceremoniously migrated. There was not a bee left to keep its lonely watch over the forty-five hives. As might be expected, farmer Broil was left in considerable of a dilem-1,000,000 are of the Indo-American race. ma, and immediately consulted all the authorities at his command in relation to the Reading through many volumes it occur-So each pulsation of the heart marks the red to him that some of his neighbors might be able to explain the whys and wherefores of this "bounty jumping move on the part of his army of honey-makers," He accordingly made a "bee-line" for the residence of his nearest neighbor to consult him on the singular problem. To his utter surprise he ascertained that his friend who is also a "beeist," had met with the In 1,000 persons 95 marry, and more marriages occur in June and December same loss in the same sudden manner, and was in the same perplexity as to the cause. They at once resolved on examining the hives, and it revealed to them the fact that burdened, and as it would seem for the longevity. In 1,000 individuals who arrive each stand contained from sixty to sevenpurpose of testing his vaulting powers, he at the age of 70 years, 42 are priests, ora- ty-five pounds of honey. This development led the two bee raisers to seek for rists; 33 are workmen; 32 are soldiers or further information, and in their rounds, for a circuit of twenty-five miles, they Those who devote their lives to the pro-longation of that of others die the soon-about the same time, and all of them were left full of honey. The farmers in that region are unable to account for this mys-There are 60,000,000 Asiatic religionists. terious disappearance of their bees, and many theories have been advanced, but up to this time the problem remains upsolved The opinion of most of them is that the mildness of the weather up to so late a season caused this singular migration,-

> THE DETROIT!Free Press, of Monday, says: "On Saturday morning we were shown a valuable relic in the shape of an

Louisville Democrat, July 12.

THE Saginaw Enterprise has the followhorse. A small four-wheeled derivery eart was pressed into service, in which they packed themselves. Then the engineer of the scheme let up his kite, a very large one, holding the string in both hands, and the tongue of the cart between his legs for steering purposes. A good steady breeze kept the cart moving, and in this novel manner the kite, cart, and cargo, proceeded down Washington street, to the great glee of the passengers and as-tonishment of the spectators."
